This undertaking is translated into the respect of legislation and regulations on social, environmental and tax matters, fair competition, and anti-corruption. The same undertaking is also required from every subject that is in relation to Atos.

CODE OF ETHICS

Atos has decided to express in a Code of Ethics the ethical commitments and responsibilities that Atos assumes in the conduct of business and corporate activities.

This Code explicitly sets out the values in which Atos believes, the guiding principles, the rules of conduct that enrich Atos's decision-making processes and the duties and responsibilities which must inspire the behaviour of the subjects who operate in Atos and with Atos.

The Code of Ethics represents a fundamental and essential tool for guiding the behaviour and conduct of the subjects who work for Atos, in order to avoid carrying out actions that could damage Atos itself.

This Code of Ethics, adopted by the Board of Directors of the Parent Company on 5th October 2023, constitutes a single document for the entire Group and as such all directly or indirectly controlled companies are required to accept it and implement the contents with the adjustments required by applicable local regulations, possibly approving their own Codes of Ethics or Codes of Conduct whose principles are similar, and in any case do not conflict in any way with those of this Code.

Atos will actively work to ensure the dissemination and knowledge of the Code of Ethics to all interested parties, the deepening and updating of the same as well as to verify the effective application of the values and principles enshrined therein and sanction any violations.
